EDUCATION

Gyan Ganga Institute of Technology Sciences Jabalpur, India

Bachelor of Technology – Artificial Intelligence & Robotics **June 2023 - 2027**

SKILLS SUMMARY

- **Languages**: Python, SQL, C++
- **Frameworks**: Pandas, Numpy, Scikit-Learn, Matplotlib, N8N, Crew AI, Lang-chain, Lang-graph
- **Tools**: Power BI, Excel, PowerPoint, MySQL, PostgreSQL
- **Platforms**: PyCharm, Jupyter Notebook, Visual Studio Code
- **Soft Skills**: Rapport Building, People Management, Excellent communication

PROJECTS

SMS/Email Spam Classifier - | LINK **January 26- February 2026**

- Built an end-to-end **NLP-based SMS spam classification system**, including data pre-processing, TF-IDF feature engineering, and model training using **Python and Scikit-learn**. Optimized model memory for deployment and integrated the ML backend with a web interface, delivering a production-ready spam detection application.
- **Tech:** Python, Scikit-learn, NLP, TF-IDF, Git, Deployment

Data Analyst – Business Intelligence & Insights Project| LINK **February 26- March 2026**

- Performed **EDA and KPI analysis** on business datasets using **SQL, MySQL, and Excel**. Built **interactive Power BI dashboards** for executive reporting and translated raw data into actionable insights to support data-driven decision making.
- **Tech:** SQL, MySQL, Excel, Power BI

AI News Agent — Agentic AI Automation System| LINK **Janunary 26- March 2026**

- Built an autonomous AI agent using n8n integrated with Google Gemini to retrieve, summarize, and deliver personalized news through natural language interaction. Implemented tool-calling capabilities enabling the agent to fetch real-time news via NewsAPI, send automated emails through Gmail, and maintain conversational context using memory. Designed an event-driven workflow architecture with webhooks and modular tools to enable scalable AI task automation.

- **Tech:** n8n, LLMs, News API, G-mail API, AI Agents, Workflow Automation
